

In recent weeks, the City of Crystal Lake has claimed the alley adjacent to your property “is not public right-of-way and the City is not responsible.” The City’s statement conflicts with public record, an Illinois Professional Land Surveyor, and the lived experience of your neighbors. Two of your neighbors, including myself, have made multiple statements objecting to the City’s premise and their omission of voting options that can benefit you. To ensure your opinions and rights as a voter are fully represented, we ask that you consider voting on a new measure, containing a more comprehensive list of options to address the alley adjacent to your property.

Your neighbors have made statements regarding our opinions at city council, but have not been allotted a hearing with official minutes. We, like many of you, purchased our homes under the assumption that the City alleys were public right-of-way and maintained by the city. The following public records support the idea that the alley is a public right-of-way owned by the City of Crystal Lake, a point which contrasts the City's premise found in the letter mailed to you in August.

Fig. 2 (2024 survey classifying your alley as a “PUBLIC ALLEY”)

We hope that your vote in an upcoming letter mailed to you, will compel the City to allow you and your neighbors a fair hearing, which is typical for proposed land vacation requests under 65 ILCS 5/11-91-1. To reconcile the City's position with your neighbors, we have updated your voting options to address 3 measures the City failed to include in your prior options.

Below is an updated list of voting measures available to you. For each "Topic", we ask that you let your opinion be heard by voting "Yes" or "No" in an attached form mailed to you in the coming weeks.

Table 1: Residents' alley voting option form

Your Opinion	Select one of...	
The alley is a public right-of-way.	(Yes)	(No)
The alley is maintained by the City.	(Yes)	(No)
The alley has barricades remain in place.	(Yes)	(No)

If you have questions regarding how your vote will update your rights as a home owner, benefit your property, or cost you more, we have provided a cost-benefit analysis for you to review on the next page. This table is designed for you to make an informed decision based on your full legal options, in a transparent, fair, and well documented manner.

We ask that you submit your preference by mail, email, or in person (details to be on your voting form). While your response is optional, we want to make every effort to record the full picture of your neighborhoods' wishes. As a homeowner adjacent to the alley reading this, you have received this request by either hand delivery or U.S. Postal Service.

We will present the vote tally of responses to the Crystal Lake City Council. Additionally, we will log relevant documentation/figures/sources shared with you in this letter on GitHub (https://github.com/VanAltrades/crystal_lake_ee_vail_addition_alley), a free website you can access to remain informed on the alley issue or bring your relevant information to a publicly visible platform.

Thank you for your time, and please reach out to me with any future questions in-person, or online.

Best,

Your neighbor Jack Billimack

Table 2: Sampled voting options' cost-benefit analysis for home owners

	Examples of your voting options				citation (in online appendix)	contrasting citation (submitted via merge request)
	Public alley, maintained by the City, with no barricades.	Public alley, not maintained by the City, with no barricades.	Non-public alley, not maintained by the City, with barricades.	Non-public alley, not maintained by the City, with no barricades.		
	$P-C B_a$	$P-C B_a$	$P_a C B^*$	$P_a C B_a$
